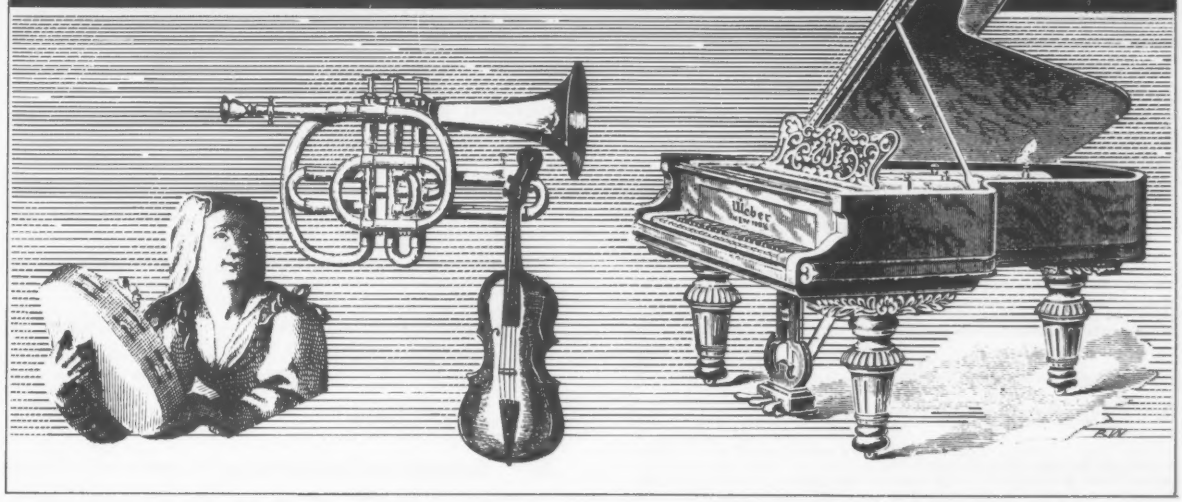
Symphony Magazine Article Index

1973-1980



The official publication of the American Symphony Orchestra League has evolved dramatically since its earliest incarnation as the *Inter-Orchestra Bulletin*. First appearing in 1942, the year of the League's founding, it continued with this name until September 1948, when it became the *News Letter*; under the editorship of League executive secretary Helen M. Thompson the title was changed to *Newsletter* in early 1952. It became *Symphony News* in October 1971 under editor Benjamin S. Dunham, who adopted a magazine format with the August/September 1973 issue. Beginning with the June/July 1980 issue, current editor Robin L. Perry effected a major revision of editorial format and content and the name change to *Symphony Magazine*.

The following index includes the 45 issues in magazine format published from August/September 1973 through December 1980. It lists all major articles and features in eight subject categories—alphabetically by title or, in the case of the "People" category, by last name of the subject. The North American Orchestra directory—published for the first time in December 1980, with annual updates to appear in each December issue—has been excluded from the category listings, as have short news items on individual orchestras and our routine and ongoing reports on League internal affairs and federal legislative activities.

By-lined articles are cross-referenced alphabetically by last name of author (or co-author), and are keyed to the eight numbered subject lists; the user of this index will quickly discover that many articles are listed under more than one subject. The categories are numbered as follows:

I. Managerial Trends and Techniques
II. Fundraising and Development
III. Performance, Programming, and Musical Selection
IV. Education, Outreach, and Community Service
V. Musical History and the State of Our Art
VI. People
VII. Broadcasting and Media
VIII. Major Product Selection

Back issues and reprints are available upon request. It is our hope that the first *Symphony News/Symphony Magazine* index will prove valuable both to our new readers and to those who have been with us for many years. We intend to update the index annually in the February/March issue.

I. Managerial Trends and Techniques

Accountability in the Arts (Smith), Apr. 77
Bloc Sales: A New Market for Many Arts Groups (Newman), Oct. 77
Challenges We Face as a Symphony Family, The (Richards), Aug. 77
Changing Face of Volunteerism, The, Oct. 80
